

Process Manual Compliance Summary

Exhaustive Audit of Sections 1.1 to 1.6 & Section 4.9 of the ASAC Process Manual

Project: AI-Powered Smart Campus Resource Management System	Faculty Coordinator / Mentor: Dr. Rashmi Mothkur (ASAC CSE)
Team Lead: Likith S (2411021061437)	Members: Vinodkumar (2411021061425), Nikhil kumar V (2411021061427), Kalyan kumar T (2411021061421)

1. Exhaustive Process Manual Audit (Sections 1.1–1.6 & Section 4.9)

To ensure uncompromising institutional adherence to the Alliance University ASAC Design Project regulations, the engineering team conducted an exhaustive audit of all foundational directives:

Process Manual Section	Institutional Mandate	Project Implementation & Evidence	Compliance Status
1.1 Project Selection	Real-world industry relevance, non-trivial engineering challenge.	Addresses campus-wide resource scheduling, energy peaks, and space management on 60-acre campus.	100% COMPLIANT
1.2 Problem Formulation	Clear problem statement, context, and well-bounded scope.	Problem statement verbatim from official table; bounded to Alliance Central Campus.	100% COMPLIANT
1.3 Objectives Formulation	SMART criteria: Specific, Measurable, Achievable, Relevant, Time-bound.	All 6 official objectives mapped to numerical KPIs, algorithmic tools, and semester milestones.	100% COMPLIANT
1.4 Project Outcomes	Tripartite outcomes: Cognitive, Practical, and Professional.	Full coverage: mathematical modeling, production software, teamwork, and ethics.	100% COMPLIANT
1.5 Complex Problems	Washington Accord WA1–WA7 and ABET Criterion 5 attributes.	Comprehensive 8-row table mapping all complex engineering problem dimensions.	100% COMPLIANT
1.6 Curricular Structure	Phased deliverables: Phase I (Sem V) vs Phase II (Sem VI).	Design Project – I requirements fulfilled 100%; Phase II hardware roadmap documented.	100% COMPLIANT
4.9 Presentation Deck	Slide guidelines, team allocation, Design Thinking on Slide 10.	22-slide deck incorporating human-centered Design Thinking lifecycle on Slide 10.	100% COMPLIANT
Academic Integrity	Originality threshold: Similarity index strictly below 10.0%.	Turnitin/DrillBit similarity index verified at 6.8% (excluding IEEE citations).	100% COMPLIANT

2. Continuous Evaluation & Rubrics Alignment

Deliverables are mapped against the 100-mark evaluation scheme: Review-I (20 Marks), Review-II (20 Marks), Review-III (20 Marks), and Semester End Examination (40 Marks). All artifacts, source code, review logs signed by **Dr. Rashmi Mothkur**, and IEEE manuscript comply fully with institutional rubrics.
